5. Update Cybersecurity and DFARS/NIST Questionnaires (if applicable).

Important: Cybersecurity is important to Lockheed Martin, and the questionnaire has been implemented to mitigate risks to suppliers as it relates to sensitive information.

- If your company receives and processes sensitive information from a third-party company (e.g. one of the Exostar partners such as Lockheed Martin), you must click the **YES** button.
- If your company is required to be compliant with the US Defense Acquisition Regulation Supplement ([DFARS 252.204-7012](#)), and associated [NIST SP 800-171](#) you must click the **YES** button.
- If you answered **YES** to either question, you are required to complete the applicable questionnaire(s). Questionnaires are hosted in Exostar’s Partner Information Manager

(PIM) application. Clicking the links within TPM (see below) give you access to the questionnaires.

Note: The Cybersecurity Questionnaire serves as an indicator of supplier cyber maturity or to highlight the need to mitigate risks of sharing LM Sensitive Information. The NIST SP 800-171 Questionnaire answers the DFARS 252.204-7012 required cybersecurity self-assessment for suppliers who process, store, or transmit Covered Defense Information.

Cyber Security Questionnaire

Does your company receive sensitive information from a third-party company (i.e. one of the Exostar partners: Lockheed Martin, BAE Systems, Boeing, Northrop Grumman, Raytheon, and Rolls-Royce)? Yes No

If yes, upon completion of registration you will receive instructions shortly via email on how to complete the required cyber security questionnaire. Completion of the registration process is required prior to completing the cyber security questionnaire. The information will be used as an input to manage risk.
If No, then no further information is required. You may proceed to the next section of the supplier profile.

NIST Questionnaire

Are you required to be compliant with the US Defense Acquisition Regulation Supplement ([DFARS 252.204-7012](#)) and associated [NIST SP 800-171](#)? Yes No

For additional information on the Partner Information Manager (PIM) and the new NIST SP 800-171 questionnaire click [here](#).

On August 26, 2015, and updated December 30, 2015, the United States Department of Defense (DoD) issued a new interim rule making significant changes to the way the U.S. DoD addresses National Institute of Standards and Technology (NIST). As a supplier, you should be aware of the significantly expanded obligations for protecting unclassified Covered Defense Information (CDI) and related activities. Additional guidance related to the above DFAR clause and NIST document can be found at the links above and also on the Exostar Partner Integration Manager (PIM) page.
