

Martin Baker

Overview

Exostar provides the following applications to Martin Baker:

- **Exostar's Identity and Access Management (IAM) Platform (formerly known as MAG)** is a consolidated portal for Identity and Access Management, including account registration, identity vetting, authentication, and delegated administration of access control across applications hosted by Exostar or external entities. These may include applications hosted by Exostar partners or third-party commercial applications. Additionally, Exostar's IAM Platform allows users single sign-on capability from their enterprise.
- **Secure Source-to-Pay (Secure S2P)** is a Software-as-a-Service offering that spans across the purchase life cycle including sourcing, contract management, supplier relationship management, procurement, payments and invoicing.
