

Department of Defense (DOD)

Overview

Exostar provides the following services and applications to The Department of Defense and their trading partners:

- **Common Access Cards (CAC)** provides users access the Boeing Supplier Portal or other applications in **Exostar's Identity and Access Management (IAM) Platform (formerly known as MAG)**.
- **Other DOD System Access** DOD Trading Partners or other individuals who need to access to DOD systems can purchase certificates through the [Exostar Webstore](#). The **Federated Identity Service (FIS)** provides certificates that comply with U.S. Federal Government standards. Exostar's Medium Level of Assurance certificates on hardware tokens are trusted by the DOD, and can be used to access any DOD application.
