Get Started - Lockheed Martin Aeronautics

e

In order to access Lockheed Martin Aeronautics, you must have an Exostar's Managed Access Gateway (MAG) account. Please follow the steps below to set-up your application access:

Step 1. Invite or Register

As a **Buyer** organization, you can invite Supplier organizations and users for collaboration to access your applications. To invite a Supplier, make sure someone in your organization is assigned the MAG Adoption Administrator role to issue invitations.

As a Supplier, your organization must receive an invitation from Lockheed Martin to access Aeronautics applications, secured in Exostar's MAG. If your organization has not received an invitation, please [contact LMCO](#) to initiate the invitation. The invitation for collaboration arrives as an e-mail asking you to register your company for a MAG account.

- Complete Exostar's [organization registration](#) process.

During the registration process, assign an Organization Administrator and Application Administrators to manage your company's account. The Organization Administrator is responsible for creating and managing users in your company. The Application Administrator is responsible for approving access to applications. Please see the [MAG Admin Resources](#) page for additional information.

Once you submit your registration request, it can take up to 48 hours for Exostar to approve. After approval, users designated as Administrators receive their first time login email, inviting them to complete their registration.

Step 2. Complete First-Time Login

After you register and Exostar approves your access, you receive an email with your login credentials and instructions on how to complete first-time login. Please see [MAG Login FAQs](#) page for additional information.

Step 3. Obtain Credentials

During the account activation process, you are prompted to purchase the Phone OTP without proofing credential. Please follow the steps below to complete the credentialing process:

1. Complete purchase via Exostar's web store.
2. Activate credential in MAG user account.
3. Register your phone in MAG user account.

Please see the [Credentialing](#) page for step-by-step instructions on the entire process.

Step 4. Accept Terms and Conditions

The user designated as the administrator for your company, usually the first person registered, must agree to the Lockheed Martin Aeronautics terms and conditions before anyone can access the solution. Please see the [Application and FIS Administrators](#) page for additional information.

Step 5. Access Application

Once you complete your account registration, set-up your Phone OTP, and accept the Aeronautics Terms and Conditions, select **Open Application** next to Lockheed Martin Aeronautics on your MAG Home tab.
