# Oceaneering Overview

e

## Overview

Exostar's Partner Information Manager (PIM) risk management tool allows suppliers to complete and share the NIST SP 800-171 Questionnaire with Oceaneering. The information that a supplier partner provides in the NIST SP 800-171 Questionnaire is used by Oceaneering to ensure that unclassified DoD information residing on the supplier's internal information system is safeguarded from cyber incidents mandated by Defense Federal Acquisition Regulation Supplement (DFARS) regulations.

Click the arrows below to read further about the overall PIM process and form resources.
