Aviation ID (AvID) Release Notes

e

We are pleased to announce that Aviation ID (AvID) will be upgraded to **Version 3.1** this coming **April 2020**. Enhancements in this version include the following:

Introducing a new role: SP Administrator Lite

Aviation ID 3.1 will be introducing a new roles called SP Administrator Lite. It has access to a small subset of features, available for the SP Administrator.

- The SP Administrator Lite role can access via the Provider Administration Tab, only Approve and Email Preferences sub tabs.
- Limiting this role to only approving and denying new user and company requests, (ie. bulk approve/deny user requests, approve/deny single company requests)
- This role can search, filter, and view new user requests
- This role can select to receive certain emails and when to send/receive notifications

Additional Updates included in 3.1:

- **Last Access Dates:** Last Access Dates will present the date and times a users successfully logged into the system in GMT timezone.
- **Activation Email wording update:** Wording was updated on the Activation email
