Exostar’s Trading Partner Manager provides complete registration life-cycle for supplier invitation and registration. Lockheed Martin uses TPM to invite new or existing Exostar Managed Access Gateway (MAG) customer partners (suppliers) to access the Lockheed Martin Procure to Pay (LMP2P) portal. It is a supplier self-service vendor profile management system with integrated D&B enrichment data. Suppliers use TPM to access Annual Socio-economic Self-Certification (NAICS codes), Executive Compensation Report Representation and the cybersecurity and NIST questionnaires as well as perform profile recertification.
